

**Our business:**  
**industrial inspection, scientific imaging,**  
**traffic control systems...**

Alliance Vision is one of the leading companies in France, who provides innovative engineering, software solutions and imaging products in the field of machine vision and image analysis. Our team of highly qualified professional engineers operates in France to provide on-site evaluation and installation of vision and imaging systems.

The applications are innumerable and wide ranging from measurement, test, control and detection... We sit at the leading edge of technological developments to bring to our customers the latest and most powerful solutions.

Alliance Vision can supply the best hardware for your application from a wide range of manufacturers. We use exclusively components manufactured by the world leading suppliers to guarantee to our customers the highest performance.

Alliance Vision is one of the major partners in Europe for National Instruments concerning machine vision and image processing.
